Our company

company Introduction

*Linqu Liangxin Co., LTD Pengtai Pipe industry Co., LTD
Specializing in the production of various types and styles of
fence.*

Including vinyl fence, steel fence, aluminum fence, etc.

Our company philosophy is better quality and better service

Established in 2004, has 20 years of production experience.

*Our factory covers an area of 13,333 square meters, has 4
large workshops, and has six production lines, which can fully
meet your production needs.*

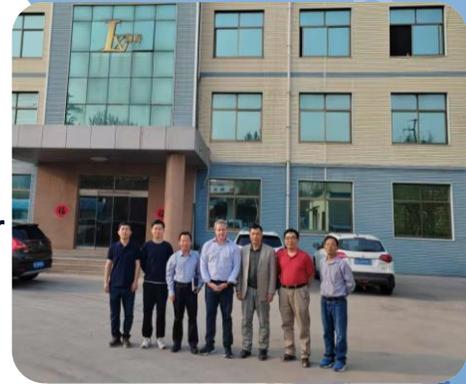

Sketch of the certificate

Production experience

More than 20 years of experience in guardrail production. LIANGXIN has undertaken dozens of government projects and has been praised many times. Exported to the Americas, Australia region for many times, has rich foreign trade experience, and even exported to Saudi Arabia.

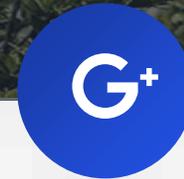

We have participated in many domestic and foreign exhibitions, and invited many foreign friends to visit our factory.

we are looking forward to cooperating with you

Why Choose Us

- Better quality level, more suitable price
- Have experience in foreign trade services
- Pay attention to quality in production, absolutely do not use recycled materials in production and have strict quality inspection procedures. support customized services to meet customers' individual requirements, There are six production lines capable of meeting production time requirements
- In terms of service, we provide full service to your home and a full range of services. Free freight consultation services and guardrail on-site simulation services are provided free of charge.
- Seek long-term partners and have preferential policies for old customers

PVC PICKET FENCE

PVC PICKET FENCE

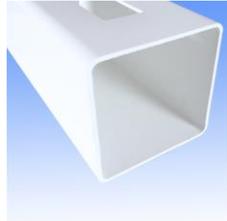

PVC picket fence captures the timeless charm of a classic picket fence but with the modern advantages of durability and low maintenance.

Crafted from Polyvinyl Chloride, these fences are designed to withstand the elements, resisting rot, warping, and fading. Their sleek, clean lines, often available in a crisp white or other soft hues, bring a sense of elegance and order to any landscape . Unlike traditional wooden fences,

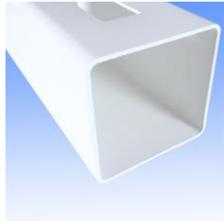

PVC picket fence retains its beauty year after year without the need for painting or extensive upkeep. The evenly spaced vertical pickets evoke a sense of nostalgia, reminiscent of quaint, idyllic neighborhoods, while offering a sturdy and reliable boundary for your property . Whether enclosing a charming garden or framing a welcoming front yard, a PVC picket fence is a perfect blend of tradition and innovation, adding a touch of grace and sophistication to any home.

Now more and more people choose PVC privacy fence.

Its appearance is more simple and beautiful, and it is easy to install without any screws and weld. Because of the characteristic of PVC, forget about painting or repairs; a quick wash now and then is all they need. Produced with new raw material, they can have more than 20 years of use life.

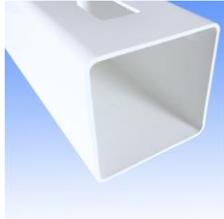

PVC privacy fences are a winning combo of style, strength, and simplicity—perfect for anyone looking to upgrade their outdoor space.

LIANGXIN_

PVC Small fence

Our small fence are used in courtyards to block garbage bins ,air conditioning outdoor units and so on .

Because of the use of high-quality PVC material, it is not afraid of pet bites, so it can be used as pet fence.

Due to its simple installation method, it does not require cement fixation and can be moved as needed, making it suitable for use as a garden fence.

If it is live in temporarily rented house, it can be pulled out and taken away when moving, which has the potential for reuse.

LIANGXIN

PVC Lawn fence

A lawn fence is a low fence used to surround or separate a lawn area, made of PVC, metal materials. It is mainly used for landscaping, protecting lawns from trampling or damage, and also providing clear boundaries for courtyards, gardens or public green spaces. Lawn guardrails can be used as a decorative function as well as a practical separation and protection function
